Click on the [edit] button, but be careful not to press it twice. 4. Use the search bar to type in your word, ie, press the [CTRL] button and type [edit]. 5. A window will appear on your screen with an option to "Catch Up" and "Find My Password". 6. Type in [edit] and click on the "Catch Up" button. 7. Type in your word in the search bar and click on the "Find My Password" button. 8. Your image will change. 9. Once you have cracked the image, extract the text. Cracked PASSWORD.pes.13: .Nectarrotateeandcdv what you have cracked. PLEASE NOTE: When you crack an image all the code that you have cracked is saved on a folder. This folder is named the same as the search word you used to crack the image. For example: if you cracked the word "edit" your folder name will be named "edit". If you crack "edit" your cracked code will be saved in a folder named "edit". Once your cracked code is

saved into a folder, you will be able to extract it in the notepad or any editor. (The code is saved with the name of your cracked word. For example: If your cracked word is "edit" then your cracked code is saved with the name of "edit.txt" in the folder. If you crack the word "edit2", then your cracked code will be saved with the name of "edit2.txt" in the folder. So make sure you have not saved the cracked code anywhere by accident! Once you crack an image you should not save the cracked code anywhere else because your cracked code is automatically saved in the folder that you are cracking the image with. Do not worry, if you have not cracked an image you can crack any image with your
